

KNOW YOUR ENVIRONMENT. OWN YOUR ROADMAP.

In four weeks, gain executive visibility into your technology environment, understand where business risk exists, and receive a prioritized roadmap to guide future technology investments.

WHAT LEADERSHIP WALKS AWAY WITH

CLARITY

Understand your technology environment with a complete, validated view of your infrastructure, systems, and operational risks.

PRIORITIES

Every risk is prioritized by business impact, so you and your team know what matters most and why.

ROADMAP

Receive a practical, prioritized roadmap aligned to your business goals.

CONTROL

Your assessment stands on its own. You decide what to do next. *No implementation is bundled or required.*

Every assessment follows a structured, four-week engagement designed to minimize disruption while delivering executive-ready insights and recommendations.

HOW YOUR FOUR-WEEK ENGAGEMENT WORKS

A structured, low-friction process designed around executive time. Clear scope, focused discovery, and a leadership-ready roadmap delivered in four weeks.

WEEK 1

KICKOFF & BUSINESS ALIGNMENT

- Confirm scope
- Identify stakeholders
- Establish objectives
- Coordinate access

WEEKS 1-2

DISCOVERY

- Collect technical information
- Review infrastructure
- Interview stakeholders
- Validate findings

WEEKS 2-3

ANALYSIS & RISK PRIORITIZATION

- Analyze environment
- Identify operational risks
- Prioritize findings
- Develop recommendation

WEEK 4

EXECUTIVE FINDINGS & ROADMAP

- Executive report
- Leadership presentation
- Prioritized roadmap
- Question & next steps

AT THE END OF FOUR WEEKS YOU'LL HAVE...

EXECUTIVE FINDINGS REPORT

Summary of findings, business risks, and recommendations.

ENVIRONMENT BASELINE

Validated snapshot of your current technology environment.

RANKED RISK REGISTER

Every finding prioritized by business impact.

PRIORITIZED ROADMAP

Near-, mid-, and long-term recommendations.

LEADERSHIP REVIEW

Our team will present our findings and recommended next steps to you and your team.

HOW FINDINGS ARE PRIORITIZED

CRITICAL

Immediate business or operational exposure requiring executive attention.

HIGH

Significant impact on operations or compliance that should be addressed in the near term.

MEDIUM

Limited-impact improvement opportunities worth addressing

WHAT MAKES THIS ASSESSMENT DIFFERENT

MISSION-FOCUSED ASSESSMENT

Every recommendation is aligned to your organization's mission, business objectives, and long-term success—not technology for technology's sake.

EVIDENCE-BASED RECOMMENDATIONS

These are not just assumptions or generic best practices. Every recommendation is supported by validated findings from your environment.

EXECUTIVE-READY REPORTING

Clear reporting designed to support leadership discussions, budgeting, planning, and strategic decision-making.

ACTIONABLE PLAN

Assessment findings turned into a prioritized plan that supports informed business and technology decisions.

IMPLEMENTATION OPTIONS

Your roadmap stands on its own. When you're ready, implement with Alliance, your internal team, or another trusted partner.

● INCLUDED

- Infrastructure review
- Map Application Eco-System
- Technology Workflow Review
- Gap analysis in technology Deployment
- Operational risk analysis
- Stakeholder interviews
- Executive reporting
- Prioritized roadmap

● NOT INCLUDED

- Implementation or remediation
- Ongoing managed services
